## *Message from the Organizing Committee*

### **Dear Colleagues, Participants and Guests**

On behalf of the organising team, it is my immense pleasure to invite you to a one day CME on "Sepsis in Critical Care Patients: Race Against Time". As healthcare professionals, we are all too familiar with the devastating impact of sepsis on our patients and their families. Sepsis, a medical emergency demands immediate attention and action. The clock is ticking, and every minute counts. This CME is designed to bring together experts and thought leaders to share their knowledge and expertise on the latest advances in sepsis management.

During the CME, we will explore the latest evidence-based strategies for recognizing, diagnosing, and treating sepsis in critical care patients. From early recognition and Antibiotic Stewardship to hemodynamic management and organ support, we will cover it all. Our goal being to equip you with the knowledge and skills to tackle sepsis head-on and improve patient outcomes. We have an exciting lineup of speakers, interactive sessions, and case discussions that will challenge your thinking and inspire action.

I am confident that this CME will be a valuable experience for all of you, and I look forward to hearing your thoughts and insights.

*Best Regards,*

**Dr. Sarbjeet Sharma**
